Yes, altho there is still a pressing need and desire from locals to have EPA messaging on key Qs and As an potentially a public meeting presentation at some point.

Thank you. I will tell Dan to stand down on any presentation.

No public meeting tomorrow with locals. State Sen Roberts is convening some sort of meeting/forum at Fort Lewis College tomorrow at 12:30 pm to discuss collaboration towards upper Animas mine waste issues and solutions. No one here in local command is planning on going at this point.

Much confusion here, Rich.

The last Dan Wall and I heard, Dan was supposed to present the environmental data and

interpretation in a Sunday, 3pm public meeting in Durango – location to be determined.

Then I heard the public meeting was cancelled.

Then I heard that some State Congress person was holding a public meeting earlier on Sunday. What is our level of participation, is Dan still presenting, what is going on???
